

## 5 GHz 2-Way Splitter with N-Style Jack Connector

Ventev's TerraWave Antenna Splitters are designed to divide or "split" the RF signal from one radio to multiple antennas. The splitters are perfect for applications that require coverage of two different areas with a single access point or bridge. Ventev splitters are designed for the 5 GHz marketplace. The units' rugged design and small footprint make them ideal for most bridging and LAN applications. Each splitter includes a one-year warranty.
